### Timing (If there are observers, you do not have to do timing):

#### Game length:

- 90 minutes
- One horn blast signals start of game. Listen for horn and inform teams that game is to begin.
- Hard time cap for each game is 85 minutes (see time cap below). One horn blast signals when the hard cap is reached. Listen for horn and inform teams that it has sounded and the game has ended.

After a point is scored watch time on tablet (if using) or start stopwatch

- Receiving team has 70 seconds to signal readiness (signaled by raising a hand)
- Pulling team then has 20 seconds to pull the disc (after receiving team has signaled)
- Blow whistle:
  - o **Once** at 50 seconds
  - o **Twice** at 70 seconds
  - o **Three times** at 90 seconds
- Time Infringements (you do not enforce this, if there are no observers the teams on the field can choose to enforce this):
  - o First infringement results in a warning (make note on scoresheet)
  - o Any subsequent infringements result in a team losing one of the time-outs (mark on scoresheet)
  - o NOTE: If infringing team has no time-outs left, the infringing team is:
    - Receiving - they start with the disc at the midpoint of the end zone they are defending, after players set up and a check is performed
    - Pulling - the receiving team gets the disc at midfield, after players set up and a check is performed
